

RELAVIT

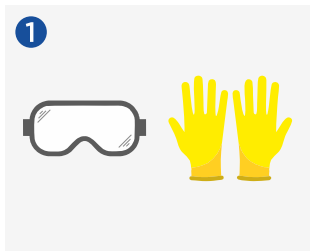

SOAK CL

Chlorinated dishwash liquid

RELAVIT SOAK CL is a fast acting cleaner, designed for use in busy cafes to remove tannin and coffee stains from cups and saucers. RELAVIT SOAK CL will also remove food debris from crockery and cutlery when used in machine dishwashers.

Do NOT use on aluminium, zinc or other alloys.

METHOD OF USE - Dishwashing

1 Wear correct PPE when changing dishwashing tubes.

2 Place the dosing tube into the container of Relavit Soak CL.

3 Run the dishwasher cycle to ensure the product is pulling through.

DOSAGE

DISHWASHER MACHINE

1-5mls per litre of water.

RELAVIT SOAK CL

CHLORINATED DISHWASH LIQUID

- FAST ACTING FORMULA
- REMOVES TANNIN & COFFEE STAINS
- USE WITH HOT OR COLD WATER

PRODUCT DESCRIPTION

RELAVIT SOAK CL is a fast acting cleaner, designed for use in busy cafes to remove tannin and coffee stains from cups and saucers. RELAVIT SOAK CL will also remove food debris from crockery and cutlery when used in machine dishwashers.

A clear, chlorinated detergent, RELAVIT SOAK CL is suitable for use with hot or cold water in automatic dishwashing machines. Can also be used to soak stained cutlery/crockery until the stains have been removed.

INSTRUCTIONS FOR USE

MACHINE USE

Put the dosing tube into the container of RELAVIT SOAK CL so that it reaches the bottom. The dosing unit, which has been preset to a specific concentration, will automatically dispense RELAVIT SOAK CL into the machine. Adjust the charge on the dosing unit if necessary to gain the level of cleaning action required.

SOAK

Make up a solution of RELAVIT SOAK CL in a sink or bowl. Soak stained cutlery/crockery until the stains have gone and then rinse thorough with clean water.

N.B. Do NOT use on Aluminium, Zinc or other alloys.

ADDITIONAL INFORMATION

pH Level: 13-14

STORAGE

Use above 5°C. Store preferably above 0°C.

PACKAGING

Jerry Can	5 Litre
Container	20 Litre
